Matías D. Molina | Curriculum Vitae

Personal Information

Name: Matías Molina.
Location: Córdoba, Córdoba, Argentina.
Passport: Argentine, Italian.
Phone: +54 9 (0)351 (15) 7570259
Email: molinamatiasd@gmail.com
https://matiasmolina.github.io

Education

- **2021** Ph.D. in Computer Science. *Five-years degree*, National University of Córdoba, Argentina.
- **2012** Licenciado en Ciencias de la Computación. FAMAF-UNC. *Equivalent to a BSc+MSc in CS.*

Skills & tools

Machine learning | Statistics | Zero-shot learning | Teaching | Python | PyTorch | NumPy | SciPy | Scikit-learn | Pandas | Matplotlib | Seaborn | Gnuplot | Git | LaTeX | Friendly | Creative | Empathic | Communicative | Responsible

Projects and Publications

- Zero-Shot Classification and synthetic data generation (In Progress)
- Exploring Projection Symmetries in Zero-Shot Classification (Pattern Recognition Letters)
- Performance Variability on Zero-Shot Classification (Workshop NeurIPS'20)
- Zero-Shot Learning with Partial Attributes (ISICS 2018)

Scholarships

- **2015** PhD scholarship provided by the National Council of Technical and Scientific Research (CONICET).
- **2011** TICs Scholarship provided by The National Ministry of Education for undergraduate students.

Conferences and Workshops

- **2020** Presenter at LXAI workshop at NIPS.
- **2020** Attendence to BMVC, CVPR, NIPS.
- **2020** Attendence to MachinesCanSee 2020 http://machinescansee.com/.
- **2018** Presenter at the International Symposium on Intelligent Computing Systems 2018, Mérida, México.
- **2017** Attendance to the Workshop *Hands On Data*, Catholic University of Córdoba, Argentina.
- **2017** Attendance to the *XLIII CLEI – 46 JAIIO, Argeninean School of Artificial Intelligence*.
- **2017** Attendance to the Workshop *Publishing your research*. UNC, Argentina.

Courses

Postdegree courses.....

- **2016** (i) Machine Learning and Computer Vision, (ii) Stochastic Classification (FAMAF – UNC).
- **2015** (i) Non-linear Optimization, (ii) Introduction on Computer Vision and GPUs (FAMAF – UNC).
- **2010, 2011** Artificial Intelligence, Statistical Analysis on Satellite Imagery, Computer Graphics (FAMAF – UNC).

Jobs and Teaching

Teaching

- **2014 - present**: Teaching Assistant FAMAF - UNC
  - **2020, 2021**: Introduction to Algorithms.
  - **2019, 2018, 2016**: Introduction to Algorithms. Operative Systems.
  - **2017**: Paradigms of Programming Languages, Operative Systems
  - **2015**: Networks and Distributed Systems, Operative Systems.
  - **2014**: Computer Organization, Operative Systems.
- **2012**: Teacher of Informatics. Secretary of Extension, UNC.*In this position I worked in an interdisciplinary team together with psychologists and social communicators*
- **2009**: Undergraduate Teaching Assistant. FAMAF - UNC.

Others

- **2017** LAB design for the Paradigms of Programming subject.
- **2018,2017,2016,2015** LAB design for the Operative System subject.
- **2015** Co-advisor of Licentiate thesis under the supervision of Professor Dr. Oscar Bustos.

Software Development

- **2015 – 2020** Python + PyTorch. FAMAF, UNC.*During my PhD I've been reproducing, designing and implementing different machine learning models. Mainly based on Python, using different libraries for statistics: NumPy, SciPy, SiKit-learn, Matplotlib, Seaborn, Pandas, etc.*
- **2014 – 2015** Python Developer. FAMAF, UNC.*Document management application.*
- **2013 – 2014** Python Developer. Company: Harriague + Asociados. Córdoba, Argentina. *Design and development. SCRUM / REST / Quality Control/ Requirements Specification*

Languages

Spanish: Native – English: Upper-Intermediate – Portuguese: Intermediate.
