Data science - Machine learning - Statistics - Python - Scikit-learn - NumPy - Pandas - PyTorch - Seaborn - Jupyter - Git - Research - Teaching

Education

2021 Ph.D. in Computer Science. *ML > Transfer Learning > Zero-shot learning.*
2012 (MSc) Licenciado en Ciencias de la Computación
2010 (BSc) Analista en Ciencias de la Computación.
Faculty of Mathematics, Astronomy, Physics and Computer Science (FAMAF).
National University of Córdoba, Argentina (UNC).

R&D

01.2021 - 12.2022 Data Science consultant (Freelance)
Data analysis, machine learning modeling. Classification, time series forecasting.
`Python, Jupyter notebook, Git, SciKit-learn, Pandas, NumPy, Seaborn.`

06.2021 - 06.2022: Data Scientist - PreCog.finance (http://precog.finance)
Member of the R&D team. Research, ML engineer, model evaluation.
`ETL pipeline, Python, Jupyter, Git, SciKit-learn, Pandas, NumPy, problem formalization, presentation.`

04.2021 - 12.2021 Data Scientist - Academic-Industry collaboration.
Member of R&D team. Data exploration, ML for classification and anomaly detection, presentation.
`Classification, word-embeddings, anomaly detection, sequential models, neural networks, SciKit-learn, Pandas, NumPy, Seaborn, Jupyter, Git.`

2021 - 2021 Professor. Data Science Diploma at the Faculty of Economic Sciences.
Fundamentals of Machine Learning, data analysis, presentation, advisor.

2017, 2018 - Member of the teacher's assistants evaluation court at the UNC.

2013 - Advisor of MSc Thesis. Faculty of Mathematics, Astronomy, Physics and Computer Science.

2012-2015 - Python Developer. I've been developing in both industry (Harriague, IncluIT) and academia (FAMAF-UNC). Using Python, MongoDB and REST architecture.

Teaching

2014 - Present: Assistant Professor. CS degree - National University of Córdoba:
`Logic, algorithms, data structures, functional programming, imperative programming, program derivation.`
Subjects:
- Introduction to Algorithms.
- Operative Systems.
- Paradigms of Programming Languages.
- Networks and Distributed Systems.

2009 - Undergraduate Teaching Assistant.

Publications

Zero-shot learning with partial attributes, M.Molina and J. Sánchez, ***ISICS*** *2018* [+]
Performance variability in zero-shot classification. M.Molina and J. Sánchez, ***NeurIPS*** *2020* [+]
Trading-off information modalities for zero-shot classification. M.Molina and J. Sánchez, ***WACV*** *2022* [+]
Synthetic dataset generation for ZS-Classification evaluation (Sent to ***PRLetters****)*

Conferences

2020 - Presenter at LXAI workshop at NIPS.
- Attendance at BMVC, CVPR, NIPS.

2018 - Presenter at the International Symposium on Intelligent Computing Systems, México.
2017 - Attendance to the Workshop Hands On Data, Catholic University of Córdoba, Argentina.
- Attendance to the XLIII CLEI – 46 JAIIO. UTN, UNC. Córdoba, Argentina.

2017 Attendance to the Workshop Publishing your research. UNC, Argentina.

Scholarships

2015 - PhD scholarship. National Council of Technical and Scientific Research (CONICET).
2011 - TICs Scholarship. National Ministry of Education for undergraduate students.

Languages

Spanish (native) – English (professional) – Portuguese (basic)
